Subject: Hot topics for CAG meeting

Just thought I would do a quick overview of what we think the hot topics are for this CAG meeting and possible leads for addressing them. The following are only suggestions to start the conversation between you all.

CF&I: Demetri will raise this. He has been contacted by the appropriate CDPHE staff on the issue and Jeannine was going to follow-up again just to check in. Demetri was VERY out of control at a recent HOA meeting towards Kocman's, according to Pam. I am not anticipating any problems given my conversation with him. I suggest Jeannine take the lead on this at the meeting.

FHA loans: Rose will raise this. I am pleased to jump in immediately and say I have recorded notes to share with HUD and that HUD is on our mailing list for all CAG meetings. I am not sure where this issue is right now, but perhaps just a simple statement from Sabrina acknowledging how difficult this must be for her family and that EPA and HUD are working on this. If Steve is there, he could do this also--but I think it sometimes is best for Sabrina to maintain the leadership role and be the stateperson acknowledging how hard this must be. Steve could follow up if he wants. There was a request at the last meeting to see if TASC money could be used to help educate lenders about this issue. Perhaps providing an answer to this could be helpful?

Pilot Sampling data: Some may be upset that this information is not available yet and that the sampling plan has not been reviewed by the workgroup yet. I suggest Sabrina be the lead on this. Sometimes groups will press for a hard date if they feel things have been slipping, so it may be worth anticipating this request.

Health Education plan: Participants may want to have input into the plan. I am not sure who is the appropriate person to respond to this and if it is possible, when would be the appropriate timing.

Animas: I don't know whether this will come up, but it certainly is possible. I suggest I jump in and say these aren't the staff and we already have enough to cover.

Thoughts?
